

Answer the following questions for 2 of the works of art on the webpage

<http://humanities.alsoilluminateme.com/humanities/socialart.htm>

*(i.e. you're going to do 1 work of art – answer 2 questions. Another work of art – answer the same 2 questions) **I would like your answers by Monday July 31***

What mythological story and character(s) is being referenced in the image?

(Answer me in a few sentences here – I know the myth, you don't need to re-tell it, but you do need to be thorough in your answer so that I know that you know).

What is the image's message? Why did the artist paint this mythological image?

Tie it into the time period in which it was painted and/or the artist's life.

(This one is a big-un, please take your time in answering – you can do it in a bulleted list or any format you like, but it should be in your own words and be convincing. I'd say not less than half a page.)
